

MS.NET QUIZ- 8

The respondent's email (**omjbhaleraowork@gmail.com**) was recorded on submission of this form.

Enter name *

om bhalerao

Enter PRN *

48

1. Select the namespace on which the stream classes are defined? *

- ☐ System.Output
- ☐ System.Input
- ☒ System.IO
- ☐ All of the mentioned

2. Which of the following class in the base class for all I/O operations from different sources? *

- ☒ System.IO.Stream
- ☐ System.IO.FileStream
- ☐ System.IO.MemoryStream
- ☐ System.IO.NetworkStream

3. According to given below statements, choose the correct option regarding serialization. *

1. Serialization is the process of converting information into a byte stream that can be stored or transferred

2: Deserialization is the process of converting a serialized sequence of bytes into an object.

3: Serialization is the process of converting a serialized sequence of bytes into an object.

4: Deserialization is the process of converting information into a byte stream that can be stored or transferred.

- ☐ 2 and 3 are correct.
- ☐ 3 and 4 are correct.
- ☐ 1 and 4 are correct.
- ☒ 1 and 2 are correct.

4. How do you open a file for writing in C#? *

- ☐ File.OpenForWriting()
- ☒ File.Create()
- ☐ File.OpenWrite()
- ☐ File.OpenForEdit()

5. Which of the following attributes should you add to a class to enable it to be serialized? *

- ☐ Serializable
- ☒ Serializable
- ☐ SoapInclude
- ☐ OnDeserialization

6. How many types of Serialization .NET supports? *

- ☐ Binary Serialization
- ☐ SOAP Serialization
- ☐ XML Serialization
- ☒ All of the above.

7. What is reflection in C#? *

- ☐ A feature that allows modifying private members of a class
- ☐ A technique to improve runtime performance of an application
- ☐ A mechanism to examine and manipulate metadata of types at runtime
- ☒ A process of transforming source code into an executable binary

8. Which namespace is commonly used for reflection in C#? *

- ☒ System.Reflection
- ☐ System.Runtime
- ☐ System.Diagnostics
- ☐ System.Linq.Expressions

9. Which namespace is commonly used for serialization and deserialization in C#? *

- ☐ System.Serialization
- ☐ System.Data.Serialization
- ☐ System.IO.Serialization
- ☒ System.Runtime.Serialization

10. What is the purpose of "@" symbol in C# file handling? *

- ☐ It represents a wildcard character in file operations.
- ☐ It signifies read-only access to files.
- ☒ It indicates a literal string without escape sequences.
- ☐ It denotes a hidden file attribute.
