

SDM Mock 1

Total points 27/40

The respondent's email (**maheshpatil9691@gmail.com**) was recorded on submission of this form.

✓ What is the difference between a monolithic and microservices architecture? *1/1

- ☒ Monolithic architecture is a single, large, complex service, while microservices are small, autonomous services. ✓
- ☐ Monolithic architecture is a single, small, simple service, while microservices are large, complex services.
- ☐ Monolithic architecture is a group of small, simple services, while microservices are large, complex services.
- ☐ Monolithic architecture is a group of large, complex services, while microservices are small, autonomous services.

✓ Which of the following git command that downloads your repository from GitHub to your computer? *1/1

- ☐ git config
- ☐ git push
- ☒ git clone ✓
- ☐ git commit

✓ What are the three main types of cloud computing services? * 1/1

- ☒ Infrastructure as a Service, Platform as a Service, and Software as a Service ✓
- ☐ Infrastructure as a Service, Program as a Service, and Software as a Service
- ☐ Infrastructure as a Service, Platform as a Program, and Software as a Service
- ☐ Infrastructure as a Service, Platform as a Program, and Software as a Solution

✓ What are some benefits of using microservices? * 1/1

- ☐ Scalability
- ☐ Resilience
- ☐ Flexibility
- ☒ All of the above ✓

✓ What is the basic operational unit of Kubernetes or K8S? * 1/1

- ☒ Pod ✓
- ☐ Task
- ☐ Nodes
- ☐ Container

✓ What is the purpose of the product backlog refinement? *

1/1

- ☐ It is a process for selecting the backlog items before sprint starts
- ☐ It is a one time selection process of backlog items during the sprint
- ☒ It is continuous process to create actionable product backlogs
- ☐ All of above

✓ What is a pipeline in Jenkins? *

1/1

- ☐ A set of plugins that provide additional functionality to Jenkins
- ☒ A series of automated steps that build, test, and deploy software
- ☐ A graphical user interface for managing Jenkins
- ☐ A feature that allows users to create and manage Jenkins jobs

✓ Which of the following is the understanding of software product limitations, learning system related problems or changes to be done in existing systems beforehand, identifying and addressing the impact of project on organization and personnel etc?

*1/1

- ☐ Software Design
- ☐ Feasibility Study
- ☐ Requirement Gathering
- ☒ System Analysis

✗ According to Agile manifesto - *

0/1

- ☐ Individuals and interactions over people and technique
- ☒ Individuals and interactions over projects and tools
- ☐ Individuals and interactions over processes and tools.
- ☐ Individuals and interactions over products and tools

✗

Correct answer

- ☒ Individuals and interactions over processes and tools.

✓ Which Command is used to show limited number of commits in Git? *

1/1

- ☐ git log -f
- ☒ git log -n
- ☐ git log -a
- ☐ git log status

✓

✓ Following Docker command:

1/1*

`docker commit -m "My first update" container_ID user_name/repository_name`
is used to :

- ☐ Build an image
- ☐ Access a running container
- ☐ Activate default VM machine
- ☒ Commit changes done in a Docker image

✓

✓ What is a hybrid cloud? *

1/1

- ☐ A type of cloud computing that provides virtualized computing resources, such as servers and storage
- ☐ A type of cloud computing that provides a development platform for building software applications
- ☒ A combination of public and private cloud computing ✓
- ☐ A type of cloud computing that focuses on data analysis and visualization

✗ How do you create a copy of a lab under your own GitHub account so that *0/1 you can solve the lab?

- ☐ Forking it via the GitHub interface.
- ☒ git clone ✗
- ☐ git pull-request
- ☐ git fork

Correct answer

- ☒ Forking it via the GitHub interface.

✗ ER model shows the _____. *

0/1

- ☐ Static view
- ☐ Dynamic view
- ☒ Functional view
- ☐ All the above

✗

Correct answer

- ☒ Static view

✓ Which programming language is used to write Jenkins? *

1/1

- ☒ Java
- ☐ Python
- ☐ Ruby
- ☐ JavaScript

✓

✗ What happens when all the Sprint Items cannot be completed? *

0/1

- ☐ The Sprint should be extended
- ☐ The Sprint ends with the done items
- ☐ The Sprint should be canceled
- ☒ The unfinished Sprint items should be removed from the Sprint Backlog

✗

Correct answer

- ☒ The Sprint ends with the done items

✗ What is Kubernetes Kubelet? *

0/1

- ☐ The primary node agent that runs on each node in a Kubernetes cluster
- ☒ A networking abstraction to access a set of Pods
- ☐ A way to manage container images

✗

Correct answer

- ☒ The primary node agent that runs on each node in a Kubernetes cluster

✓ What is the full form of GIT? *

1/1

- ☒ Global Information Tracker
- ☐ Global International Tracker
- ☐ Global information Traffic.
- ☐ None of the above

✓

✓ Which of the following is not a core component of Jenkins? *

1/1

- ☐ Jenkins Master
- ☐ Jenkins Slave
- ☐ Jenkins Node
- ☒ Jenkins Client

✓

✓ What are microservices? *

1/1

- ☐ A design pattern used primarily in functional programming and object-oriented programming
- ☐ Microservices are used to build monolithic architecture
- ☒ Microservices are a software architectural style in which a large application is built as a collection of small, independent, and scalable services ✓
- ☐ None of the above

✗ What do we mean by across-functional Development Team? *

0/1

- ☐ Each of the Development Team members should be cross-functional
- ☐ The developer should able to create test cases and execute them
- ☒ The Development Team should collaborate with the other Development Teams ✗
- ☐ The Development Team should have all the skills necessary to deliver the Done Increment

Correct answer

- ☒ The Development Team should have all the skills necessary to deliver the Done Increment

✗ Do you think the agile methodology is best suitable for a small development project?

*0/1

- ☒ Yes ✗
- ☐ No

Correct answer

- ☒ No

✓ Which selenium command check whether specific text exists somewhere *1/1
on the page ?

- ☒ verifyTextPresent
- ☐ checkTextPresent
- ☐ verifyPresentText

✓ The tools that support different stages of software development life cycle *1/1
are called _____ .

- ☒ CASE Tools
- ☐ CAME tools
- ☐ CAD tools
- ☐ CARE tools

✓ Which of the following is used to navigate to a URL in Selenium? * 1/1

- ☒ driver.get()
- ☐ driver.navigate()
- ☐ driver.goto()
- ☐ None of the above

✓ Git checkout command used for? *

1/1

- ☐ to create new branch
- ☐ to switch between branches
- ☐ to delete the repository
- ☒ Both A & B

*

0/1

How do you map a host port to the container port?

- ☐ docker run -i : imagename
- ☐ docker run -p 5000:5000 flask_app:1.0
- ☒ docker run --expose 5000:5000 flask_app:1.0
- ☐ None of the above

Correct answer

- ☒ docker run -p 5000:5000 flask_app:1.0

✓ RAD Software process model stands for ____ . *

1/1

- ☒ Rapid Application Development.
- ☐ Relative Application Development
- ☐ Rapid Application Design.
- ☐ Recent Application Development.

✗ What is the Jenkins Global Tool Configuration? *

0/1

- ☐ A feature that allows users to configure global settings in Jenkins
- ☒ A plugin that provides additional functionality to Jenkins
- ☐ A tool used to manage the installation of software on Jenkins nodes
- ☐ A tool used to manage the distribution of work to Jenkins slaves

✗

Correct answer

- ☒ A tool used to manage the installation of software on Jenkins nodes

✓ What is agile methodology? *

1/1

- ☐ Agile methodology is a sequential approach to software development.
- ☒ Agile methodology is an iterative and incremental approach to software development.
- ☐ Agile methodology is a circular approach to software development.
- ☐ Agile methodology is a prototype approach to software development.

✓

✗ What happens if you attempt to perform a Docker build based on an image that has not been previously referenced on your machine? *0/1

- ☐ Docker will pull the image from GitHub.
- ☐ Docker will return a 404: file not found message.
- ☒ Docker will return a 408: image not found message. ✗
- ☐ Docker will pull the image from Docker Hub.

Correct answer

- ☒ Docker will pull the image from Docker Hub.

PRN *

43

✗ Arrange the following scrum practices according to the order in which they are carried out. *0/1

1. Sprint planning
2. Daily scrum meet
3. Sprint retrospective meet
4. Sprint review meet
5. Sprint

- ☐ 1, 5, 2, 3, 4
- ☐ 1, 5, 2, 4, 3
- ☐ 1, 2, 5, 4, 3
- ☒ 1, 3, 2, 4, 5 ✗

Correct answer

- ☒ 1, 5, 2, 4, 3

✗ Which of the following runs on each node and ensures containers are running in a pod? *0/1

- ☐ Pod
- ☐ Etcd
- ☐ Kubelet
- ☒ Scheduler

✗

Correct answer

- ☒ Kubelet

✓ Acceptance Testing can be done after system is installed. * 1/1

- ☒ true
- ☐ false

✓

✓ Which of the following are the responsibilities of a Scrum master role in agile methodology? *1/1

- ☐ Scrum master is a team leader.
- ☐ Scrum master helps other members included in the project to work with agile methodology.
- ☐ Scrum master is responsible for planning meetings regularly.
- ☒ All of the above.

✓

✓ Which git command helps removes untracked files from your working directory. *1/1

- ☒ git clean
- ☐ git reset
- ☐ git checkout

✗ Which of the following is delivered at the end of the Sprint? * 0/1

- ☒ A document containing test cases for the current sprint
- ☐ An architectural design of the solution
- ☐ An increment of Done software
- ☐ Wireframes designs for User Interface

Correct answer

- ☒ An increment of Done software

✓ What is Kubernetes? * 1/1

- ☒ An open-source container orchestration platform
- ☐ A container registry
- ☐ A container runtime
- ☐ A containerization tool

✓ Which of the following is used to interact with the web page elements in Selenium? *1/1

- ☒ WebDriver
- ☐ TestNG
- ☐ Cucumber
- ☐ None of the above

Name *

Mahesh Patil

✓ What is the benefit of using cloud computing? * 1/1

- ☒ Cost savings and scalability
- ☐ Increased security and data privacy
- ☐ Better performance and faster processing
- ☐ More control over hardware and software resources
