✓ 1. What is a stored procedure in MySQL? *

1/1

- ☒ A sequence of SQL statements that are stored in the server
- ☐ A tool for managing the server
- ☐ A way to store data in the database
- ☐ A method for accessing the database remotely

✓ 2. How do you create a stored procedure in MySQL? *

1/1

- ☐ Using the CREATE FUNCTION statement
- ☒ Using the CREATE PROCEDURE statement
- ☐ Using the CREATE TRIGGER statement
- ☐ Using the CREATE TABLE statement

✓ 3. Which of the following is a benefit of using stored procedures in MySQL?

*1/1

- ☐ Help reduce the network traffic between applications and MySQL Server
- ☐ Faster execution
- ☐ Code can be reused over and over again
- ☒ All of the above

✓ 4. How do you call a stored procedure in MySQL? *

1/1

- ☒ Using the CALL statement
- ☐ Using the SELECT statement
- ☐ Using the INSERT statement
- ☐ Using the UPDATE statement

✓ 5. How do you drop a stored procedure in MySQL? *

1/1

- ☐ Using the DELETE PROCEDURE statement
- ☐ Using the UPDATE PROCEDURE statement
- ☒ Using the DROP PROCEDURE statement
- ☐ Using the TRUNCATE PROCEDURE statement

✓ 6. Can stored procedures in MySQL return values? *

1/1

☒ Yes

☐ No

✓ 7. How do you pass parameters to a stored procedure in MySQL? *

1/1

☐ Using the SET statement

☐ Using the EXECUTE statement

☒ Using the CALL statement

☐ Using the SELECT statement

✓ 8. What is a trigger in MySQL ? *

1/1

☐ A tool for managing the server

☐ A way to store data in the database

☒ A sequence of SQL statements that are executed automatically in response to certain database events

☐ A method for accessing the database remotely

✓ 9. Which of the following events cannot trigger a trigger in MySQL? * 1/1

- ☐ INSERT
- ☐ UPDATE
- ☐ DELETE
- ☒ VIEW

✓ 10. What are the after triggers? * 1/1

- ☐ Triggers generated after a particular operation
- ☒ These triggers run after an insert, update or delete on a table
- ☐ These triggers run after an insert, views, update or delete on a table
- ☐ All of the mentioned

✓ 11. How do you drop a trigger in MySQL? * 1/1

- ☒ Using the DROP TRIGGER statement
- ☐ Using the DELETE TRIGGER statement
- ☐ C. Using the UPDATE TRIGGER statement
- ☐ D. Using the TRUNCATE TRIGGER statement

✓ 12. What is the purpose of a cursor in MySQL? *

1/1

- ☒ To iterate through a result set
- ☐ To store data in the database
- ☐ To create triggers
- ☐ To improve security

✗ 13. How do you declare a cursor in MySQL?

0/1

- ☐ Using the CREATE statement
- ☐ Using the DECLARE statement
- ☒ Using the CREATE CURSOR statement
- ☐ Using the DECLARE CURSOR statement

Correct answer

- ☒ Using the DECLARE CURSOR statement

✓ 14. How do you fetch data from a cursor in MySQL?

1/1

- ☐ Using the SELECT statement
- ☒ Using the FETCH statement
- ☐ Using the OPEN statement
- ☐ Using the CLOSE statement

✓ 15. How do you close a cursor in MySQL? *

1/1

- ☒ Using the CLOSE statement
- ☐ Using the FETCH statement
- ☐ Using the SELECT statement
- ☐ Using the END statement
