

✓ Which of the following commands will allow the user to search contents of a file for a particular pattern *1/1

☐ touch

☒ grep ✓

☐ find

☐ ls

✓ If you want any command to be done with administrative or root privileges, you can use the ___ command. *1/1

☐ sud

☒ sudo ✓

☐ super

☐ superuser

✓ How do you get help about the command "cp"? *

1/1

☐ help cp

☒ man cp

☐ cd

☐ None of the mentioned

✓ Which command is used to display all the files including hidden files in your current and its subdirectories ?

*1/1

☒ ls -aR

☐ ls -a

☐ ls -R

☐ ls -l

✓ What command is used to count the total number of lines, words, and characters contained in a file?

*1/1

☐ countw

☐ wcount

☒ wc

☐ count p

☐ None of the above

✓ What command is used to display the characteristics of a process? *

1/1

☐ au

☒ ps

☐ du

☐ pid

☐ None of the above

✓ A systematic procedure for moving the CPU to new process is known as- * 1/1

- ☐ Synchronization
- ☐ Deadlock
- ☐ Starvation
- ☒ Context Switching

✓ What is meant by ready state of a process? *

1/1

- ☐ When the process is scheduled to run after some execution
- ☐ When the process is currently using the CPU
- ☐ When the process is dependent of the execution time of some other process.
- ☒ None of these

✗ Is command is used to *

0/1

☒ Display all the files in a directory

✗

☐ Display type of files in a directory

☐ Display all visible files and sub directories in a directory

☐ All of the above

Correct answer

☒ Display all visible files and sub directories in a directory

✓ Who among the following can block the running process? *

1/1

☐ Fork

☐ Read

☐ Down

☒ All of these

✓

✓ Scheduling is *

1/1

- ☐ the same regardless of the purpose of the system
- ☐ quite simple to implement, even on large mainframes
- ☐ unrelated to performance considerations
- ☒ allowing job to use the processor ✓

✓ Which disk is used to cold boot a PC? *

1/1

- ☐ Program disk
- ☐ Diagnostic disk
- ☒ System disk ✓
- ☐ Setup disk

✓ User __ is divided into many partitions to accommodate various jobs. * 1/1

- ☐ File
- ☐ Data
- ☒ Memory ✓
- ☐ Program

✓ For printing a document, the Operating System first makes a ____ of the file and then hands over the control back to the application. *1/1

- ☒ Temporary copy ✓
- ☐ Prints
- ☐ Moves
- ☐ None of the given

✓ ____ systems have more than one CPU in close communication with the others. *1/1

☐ Communication

☒ Multiprocessor ✓

☐ Controller

☐ Processor

✓ The operating system provides special routines called ____ to support the specific behaviour of individual device. *1/1

☐ Managers

☐ Programs

☐ Application

☒ Device drivers ✓

✓ A set of extended instructions providing an interface between the Operating System and the user programs, is called a ____

*1/1

☐ Machine call

☒ System call

☐ Instruction call

☐ Service call

✓ The multi-user Operating System is based on the concept of ____ *

1/1

☐ Time-losing

☐ Time-spooling

☐ Time-gaining

☒ Time-sharing

✓ ____ is an example of single user Operating System. *

1/1

☒ Ms-Dos

☐ Linux

☐ Unix

☐ Basic

✓ The allocation of processors by process management is also known as the CPU ____ *1/1

☐ Managing

☐ Processing

☐ Planning

☒ Scheduling

✓ Card reader is an example of *

1/1

- ☐ Multi-tasking
- ☐ Multiprogramming
- ☒ Batch Processing system
- ☐ None of these

✓ Context switching is part of *

1/1

- ☐ Interrupt servicing
- ☒ Interrupt handling
- ☐ Polling
- ☐ Spooling

✓ Operating system is a collection of *

1/1

☒ Software routines ✓

☐ Input-output devices

☐ Hardware components

☐ All of these

✓ FIFO scheduling is *

1/1

☐ Fair-share scheduling

☐ Deadline scheduling

☒ Non-preemptive scheduling ✓

☐ Preemptive scheduling

✗ What is the name of the operating system that reads and reacts in terms of actual time? *0/1

- ☐ Real time system
- ☒ Time sharing system ✗
- ☐ Quick response system
- ☐ Batch system

Correct answer

- ☒ Real time system

✓ LINUX operating system *

1/1

- ☐ can run on PC's and larger system
- ☐ is multitasking
- ☐ is multiuser
- ☒ all of these ✓

✓ What is the main function of the command interpreter? *

1/1

- ☐ to provide the interface between the API and application program
- ☐ to handle the files in the operating system
- ☒ to get and execute the next user-specified command ✓
- ☐ none of the mentioned

✓ Which of the following is not a part of the operating system? *

1/1

- ☐ Input/output control program
- ☐ Job control program
- ☐ Supervisor
- ☒ Performance monitor ✓
